DOWNTIME

HOT SPOT

Liliana's Restaurant

2951 Triverton Pike, Fitchburg

What makes it a good place for business: The excellent food, service, atmosphere and location make Liliana's the perfect place for a business lunch or dinner. The New Orleans style cuisine is delicious, and the lunch and dinner menus have enough variety to please even the pickiest palates. The building itself has the laid-back elegance of the city that inspired it, and the location (Fish Hatchery Road and Highway PD) is easy for customers or colleagues to find.

What to order: Start with an order of crab cakes or fresh oysters. For your main dish, any of the New Orleans standbys are highly recommended. The Jambalaya never fails, but the Catfish Po Boy sandwich is also a

great lunch option. For dinner, try the Andouille Crusted Tilapia or Grilled Pork Chop. The hands-down favorites for dessert are the fresh Beignets or Bananas Foster. For a real treat, try the two together!

About the staff: The staff is always courteous and prompt, but what makes Liliana's unique is the personal touch that Executive Chef Dave Heide brings. On occasion, Dave will stop by tables in the restaurant, with or without his daughter Liliana (the restaurant's namesake) to say hi and see how your meal is.

Cost: The prices are very reasonable, particularly for the quality of food prepared. Lunch sandwiches are under \$10 and entrees under \$15, while dinner selections are \$18 or less. ■
